SUMMARY

Highly motivated and skilled professional with 10 Months of experience in Web Development. Proven track record of success in MERN Stack. Seeking to leverage my skills and experience to contribute to a dynamic team and achieve company goals

EDUCATION

Sapthagiri College Of Engineering - VTU   **Aug. 2018 – Aug 2022**
Bachelor of Engineering in Computer Science   *7.3 CGPA, Bengaluru*

R.V.S Academy - CISCE   **2017-2018**
Intermediate & Matriculation   *Jharkhand*

WORK EXPERIENCE

SignDesk Pvt. LTD   **August 2022 - Present**
Associate Software Engineer | MERN Stack   *Bengaluru*
- Worked in low Code Project from Scratch to deliver Client Specific Projects on a very short notice by using same codebase with plug and play feature
- Acquired complete knowledge for implementing Low Code and its configurations.
- Experience in technologies like ReactJS, React-Redux toolkit and Koa.js.
- Acquired knowledge of AWS services, its usage and wrote API's for its implementations.
- Acquired knowledge to Optimizing DB performance by using advanced query structures like Indexes, Developing Pure Functional Components in React.
- Gained the knowledge to Build RESTful APIs to handle all CRUD transaction for backend.
- Involved in resolving various operational issues, bugs that affect order flow to/from the interfacing system.

SignDesk PVT. LTD   **April - May 2021**
Web Developer Intern | MEAN Stack   *Remote*
- Worked on Project that involves implementation and development of Frontend and Backend using AngularJs, Bootstrap & RESTful APIs using Express and Node js to fetch and store data in MongoDb.
- Worked as a Team Lead to designate Tasks and Integrate Codes of Team Members to the Project

Mihira Technology Pvt. LTD   **September 2020**
Internship | MEAN Stack   *Remote*
- Introduced to MERN Stack by The Mentors for the Project
- Collaborated with Mentors during development processes to confirm creative proposals and design best practices
- Gained experience as a Developer and working with Team in Corporate World

CERTIFICATION

- Data Structures
- AI & ML Nano Degree
- Intermediate Coding

PROJECTS

Low Code | *MERN Stack, VS code*   **August 2022 - Present**
- Low Code platform for digital on-boarding of customers for creating an account in Kotak Mahindra Bank.
- The platform comprises of a user side where the user can fill their details for account opening and a client side where these details can be verified.
- This platform is totally dynamic, as in a single platform we are satisfying the requirement of three branches located in Dubai, Abu Dhabi and Gujarat.

Mean Stack Portfolio For Surgeon | *MEAN Stack, VS code*   **April - June 2022**
- Website developed during Internship at Signdesk using MEAN Stack.
- Features such as Login, Signup, Gallery, Blogs and CRUD activities for the admin
- https://jyotirmayhegde.com/#/home

Anti Bodies Prediction | *ML, Jupyter Notebooks*   **Nov 2021**
- Build the project to predict Anti bodies present in a body based on the input field like Age, temp, Blood O2 level, Chronic disease.
- Python Library such as Pandas, Numpy, Mathplotlib are used to train the model

TECHNICAL SKILLS

Proficient Skills : Java, Data Structure and Algorithms, JavaScript, Nodejs, Express js, MongoDb
Frameworks : ReactJs, Angular
Platform And Tools : GIT, Linux, Bitbucket, Redux, Redux toolkit
Familiar : Python, Amazon Web Services, DBMS

ACHIEVEMENTS

CodeChef solved : (3 star) 70+
Projects contributed to : 15+
House Captain : Achieved the best discipline house under my captaincy.

Sankalp **2019**

Won 1st Prize in Gaming Competition(Team of 4 members). *Sapthagiri College Of engineering*
